SUBJECT INDEX.

A

Accidents in Industry, 426.
Acid-Lined Brackelsberg Furnace, Steel Melting in an, 285.
Admiralty Gun-metal, Effect of Phosphorus on the Strength of, 181.
Air Furnace, Some Features of the Pulverised-Coal-Fired, 319, 341.
Air-Hardening Cast Iron, Oil-Hardening and, 385.
Airship R 100, 88.
Alloy, New Silicon-Zinc-Copper, 202.
Alloys and Pure Nickel, Production and Applications of High Nickel, Nickel-Copper, 353.
Aluminium Alloys, Gas Removal and Grain Refinement of, 177.
Aluminium Alloys, Use of an Active Gaseous Compound in Effecting Eutectic and Grain Refinement in, 89.
Aluminium Development Competition, 363.
Aluminium Gives Way, 368.
Aluminium Holding On, 216.
American Foundrymen's Convention, 322.
American Researches on the Physical Properties of Cast Iron, Recent, 38.
Annealing of Foundry Hooks and Chains, 355.
Annealing of Mild Steel, Structural Changes during, 431.
Anshan Works, South Manchuria, New Blast Furnace at, 446.
Apprentice Training, Foundry, 419, 443.
Arc Process, Electric Welding of Mild Steel by the Metal, 127.
Australian Steel-Foundry Practice, 145.

B

Bedplates, Welded, 448.
Belgian Sand, 447.
Bellmouth Entrances for Hydro-Electric Culverts, Large, 162.
Blast Furnace at Anshan Works, South Manchuria, New, 446.
Blast-Furnace Conduct, Influence of Moisture due to Leaking Tuyeres on, 247.
Blast Furnace, Fuel Impregnation by the Slag in the Hearth and Bosh of the, 410.
Boilers, High-Pressure Marine, 258.
Borings, Briquetting Cast-Iron, 59.
Brackelsberg Furnace, Pioneer Installation of, 183.
Brackelsberg Furnace, Steel Melting in an Acid-Lined, 285.
Brass Foundry, Model, 223.
Brass Ingot Metal in Industry, Application of, 220
Briquetting Cast-Iron Borings, 59.
British Cast Iron Research Association, Tenth Annual General Meeting, 315.
British Foundry Practice, Factor of Personnel with regard to the Future of, 11.
British Industries Fair, 402.
British Non-Ferrous Metals Research Association, 140.
British Pig-iron Resources, Economic Utilisation of, 7, 28, 46, 64, 82, 114, 129, 150, 168.
Bronze Founding, Discussion on, 74.
Bronze Plates, Moulding and Casting of, 371.
Builders' Castings, Methods of Moulding Castings for Stoves, Heating Apparatus and Various, 24.
Business, Post-War Developments in International, 272.

C

Canadian Steel Developments, 222.
Carbon and Sulphur in the Cupola, 259.
Carnegie Scholarship Memoirs, 235.
Cast-Iron Borings, Briquetting, 59.
Cast Iron = Eutectic Cast Iron, High-Strength, 75.
Cast Iron, Factors Affecting the Chilling Properties of, 44.
Cast-Iron Gutters, Standardisation of, 308.
Cast Iron, Heat- and Corrosion-Resisting, 403.
Cast Iron, Heat-Treatment of, 437.
Cast Iron, Influence of Superheating Molten, 351.
Cast Iron in France, Evolution of Malleable, 255.
Cast Iron in Relation to Temperature, Hardness of, 5.
Cast Iron in the Electric Furnace, Manufacture of, 165.
Cast Iron, Malleable, 13.
Cast-Iron Mixtures, Chromium in, 143.
Cast Iron, Nickel in, 369.
Cast Iron, Oil-Hardening and Air-Hardening, 385.
Cast-Iron Pipes, Sand-Spun, 161.
Cast Iron, Recent American Researches on the Physical Properties of, 38.
Cast Irons, Heat-Treating, 290.
Casting a Brake Wheel, 370.
Casting a Hydraulic-Press Block, Moulding and, 289.
Casting Metals, Some Scientific Principles of, 303.
Casting of Bronze Plates, Moulding and, 371.
Casting Problems, 340.
Castings at the Usines Godin, Moulding of Flat, 81.
Castings, Determining the Hardness of Chilled, 446.
Castings for Stoves, Heating Apparatus and Various Builders' Castings, Methods of Moulding, 24.
Castings, Machining Allowance on, 387.
Castings, Marine-Engine, 352.
Castings, Moulding Marine-Engine, 112.
Castings, Pin Holes in Steel, 70.
Castings, Production of Large- and Medium-Sized High-Class Iron, 91.
Castings, Semi-Steel, 164.
Castings, X-Ray Examination of, 448.
Cemented Tungsten Carbide, Grinding, 187.
Chains, Annealing of Foundry Hooks and, 355.
Charging, American Developments in Mechanical Cupola, 394.
Chilled Castings, Determining the Hardness of, 446.
Chilling Properties of Cast Iron, Factors Affecting the, 44.
Chrome-Nickel Alloys, 374.
Chrome Plating, Draft Regulations for, 102.
Chromium in Cast-Iron Mixtures, 143.
Chromium-Nickel Steels, Working High-, 162.
Cobalt Magnet Steels, 248.
Compressed Air in Steel-Foundry Practice, Economic Utilisation of, 39.
Condensers in the Foundry, Static, 188.
Congress in Moscow, Foundry, 188.
Consular Service Can Help Exporters, How, 259.
Continental Iron and Steel Industry, Conditions in the, 21, 48, 63.
Continuous Melting of Grey Iron in the Electric Furnace, 287.
Continuous Process as Applied to Malleable Practice, 166.
Converter in the Steel Foundry, Future of the Side-Blown, 14.
Conveyors, Core-Room, 221.
Copper Control, Four Years of, 288.
Copper "Famine," European, 390.
Copper Scrap is Cheap, 334.
Copper Situation, 90.
Copper Still Slumping, 240.
Core Oils, Value of Analysis and Specification for, 163.
Core Ovens, Selection of Fuels for Heating, 6.
Core-Room Conveyors, 221.
Cores, Reclamation of Oil-Sand, 56, 78.
Corporation, Closed, 326.

Machine Moulding in a Jobbing Shop, 391.
Machining Allowance on Castings, 387.
Maintenance in Foundries, Electrical, 323.
Magnetically-Operated Moulding Machines, 195.
Magnet Steels, Cobalt, 248.
Malleable Cast Iron, 13.
Malleable Cast Iron in France, Evolution of, 255.
Malleable Iron Foundry, Cupola Practice in the, 361.
Malleable Practice, Continuous Process as Applied to, 166.
Marine-Engine Castings, 352.
Marine-Engine Castings, Moulding, 112.
Mass-Production Foundry, Designing a, 267.
Materials-Handling Costs in Jobbing Foundries, 105.
Melting by Oil Fuel, Metal, 77.
Melting Difficulties with Small Quantities of Special Iron, 32.
Melting of Grey Iron in the Electric Furnace, Continuous, 287.
Metal Arc Process, Electric Welding of Mild Steel by the, 127.
Metal Melting by Oil Fuel, 77.
Metal Stocks in Britain, 431.
Metals, Slump in Base, 246.
Metals, Some Scientific Principles of Casting, 303.
Mild Steel by the Metal Arc Process, Electric Welding of, 127.
Mild Steel, Structural Changes during Annealing of, 431.
Molten Cast Iron, Influence of Superheating, 351.
Molybdenum Steels, Lowering of Critical Points in, 186.
Moscow, Foundry Congress in, 188.
Motive Power for Moulding Machines, 73.
Mould Defects in Steel-Foundry Practice, 184.
Mould-Drying Stove, Novel, 214.
Moulding a 40-in. × 16-in. Sink in Green Sand, 109.
Moulding and Casting a Hydraulic-Press Block, 289.
Moulding and Casting of Bronze Plates, 371.
Moulding Castings for Stoves, Heating Apparatus and Various Builders' Castings, Methods of, 24.
Moulding in a Jobbing Shop, Machine, 391.
Moulding Machines for Light Iron Castings, French, 124.
Moulding Machines, Magnetically-Operated, 195.
Moulding Machines, Motive Power for, 73.
Moulding Marine-Engine Castings, 112.
Moulding of Flat Castings at the Usines Godin, 81.
Moulding of Pedestal Stoves, 132.
Moulds in Steel Foundries, Behaviour of Sand, 257.

N

Nickel-Copper Alloys and Pure Nickel, Production and Applications of High Nickel, 353.
Nickel in Cast Iron, 369.
Nickel Iron and Steel, Recent Developments in, 123.
Nickel, Production and Applications of High Nickel, Nickel-Copper Alloys and Pure, 353.
Nickel Steel at Elevated Temperatures, Mechanical Properties of, 360.
Nickel Steels, Working High-Chromium-, 162.
Nitrogen on the Structure of Electric Welds, Effect of, 42.
Norfolk Foundries, 194.
Nottinghamshire Sands, Characteristics and Utilisation of, 423, 445.

O

Oil Fuel, Metal Melting by, 77.
Oil-Hardening and Air-Hardening Cast Iron, 385.
Oil-Sand Cores, Reclamation of, 56, 78.
Open-Hearth Furnaces, Gas Flow in, 378.

P

Pattern Shop, Timber and the, 128.
Patterns, Notes on Metal, 258.
Personnel of the Foundry Industry, Future, 324.
Personnel Training, Foundry, 110.
Personnel with regard to the Future of British Foundry Practice, Factor of, 11.
Phosphorus on the Strength of Admiralty Gun-metal, Effect of, 181.
Pig-iron Industry, South Staffordshire Foundry, 291.
Pig-iron Resources, Economic Utilisation of British, 7, 28, 46, 64, 82, 114, 129, 150, 168.
Pin Holes in Steel Castings, 70.
Pipes, Sand-Spun Cast-Iron, 161.
Plates, Moulding and Casting of Bronze, 371.
Plating, Draft Regulations for Chrome, 102.
Power for Moulding Machines, Motive, 73.
Power-Generating and Heating Units, Combined, 431.
Pulverised-Coal-Fired Air Furnace, Some Features of the, 319, 341.

R

Railway Classifications, 292.
Rationalisation, Foundry, 230.
Rationalisation Scheme, French Foundry, 418.
Rationalisation, Scottish Views on Foundry, 249.
Raw Materials for the Iron and Steel Industry, Evaluation of, 27.
Reclamation of Foundry Sand, 141.
Reclamation of Oil-Sand Cores, 56, 78.
Reclamation of Sand in Steel Foundries, 269.
Refinement in Aluminium Alloys, Use of an Active Gaseous Compound in Effecting Eutectic and Grain, 89.
Refinement of Aluminium Alloys, Gas Removal and Grain, 177.
Rolls, Breakage of, 404.
Rolls, Sheet and Tinplate, 148.
Roumania, British Business Men to Visit, 246.
"R.R." Alloys, Manufacture of, 441.
Rust, Temporary Preventive for, 442.
Rustless Steels, Progress in the Manufacture of, 98.

S

Sand, Belgian, 447.
Sand in Steel Foundries, Reclamation of, 269.
Sand Moulds in Steel Foundries, Behaviour of, 257.
Sand Plants, Automatic, 211.
Sand Practice in Southern Foundries, 301.
Sand, Reclamation of Foundry, 141.
Sand-Spun Cast-Iron Pipes, 161.
Sand Tip, Unique, 266.
Sands, Characteristics and Utilisation of Nottinghamshire, 423, 445.
Sands, Some Practical Notes on Foundry, 281.

XUM

Saws and their Use in Hack-Saw Machines, Manufacture of Hack, 233.
Scrap, Puzzle: Find the, 164.
Semi-Steel Castings, 164.
Sheet and Tinplate Rolls, 148.
Side-Blown Converter in the Steel Foundry, Future of the, 14.
Sink in Green Sand, Moulding a 40-in. × 16-in., 109.
Skoda Works at Pilsen, Czecho-Slovakia, 236.
Skylight Frames for Slate Roof with Watertight Joint, Machine-Moulded at the Usines & Fonderies de St. Ouen-Vendôme, Manufacture of, 159.
Slag in the Hearth and Bosh of the Blast Furnace, Fuel Impregnation by the, 410.
Social-Industrial Policy, 66.
South Staffordshire Foundry Pig-Iron Industry, 291.
Southern Foundries, Sand Practice in, 301.
Static Condensers in the Foundry, 188.
Steel at Elevated Temperatures, Creep Limit of Cast, 335.
Steel at Elevated Temperatures, Mechanical Properties of Nickel, 360.
Steel by the Metal Arc Process, Electric Welding of Mild, 127.
Steel Castings, Pin Holes in, 70.
Steel, Drilling High-Manganese, 248.
Steel Founders' Problems, 41.
Steel Foundries, Behaviour of Sand Moulds in, 257.
Steel Foundry, Future of the Side-Blown Converter in the, 14.
Steel-Foundry Ladle Cranes, 299.
Steel-Foundry Practice, Australian, 145.
Steel-Foundry Practice, Economic Utilisation of Compressed Air in, 39.
Steel-Foundry Practice, Mould Defects in, 184.
Steel Industry, Conditions in the Continental Iron and, 21, 48, 63.
Steel Industry, Some Problems of the, 375.
Steel Melting in an Acid-Lined Brackelsberg Furnace, 285.
Steel-Plant Lubrication, 76.
Steel Process in Germany, Duplex, 75.
Steel, Properties of, 76.
Steel, Recent Developments in Nickel Iron and, 123.
Steel, Structural Changes during Annealing of Mild, 431.
Steels, Cobalt Magnet, 248.
Steels, Lowering the Critical Points in Molybdenum, 186.
Steels, Progress in the Manufacture of Rustless, 98.
Steels, Working High-Chromium-Nickel, 162.
St. Ouen-Vendôme, Manufacture of Skylight Frames for Slate Roof with Watertight Joint, Machine-Moulded at the Usines & Fonderies de, 159.
Stove, Novel Mould-Drying, 214.
Stoves, Heating Apparatus and Various Builders' Castings, Methods of Moulding Castings for, 24.
Stoves, Moulding of Pedestal, 132.
Sulphur in the Cupola, Carbon and, 259.
Superheating Molten Cast Iron, Influence of, 351.
Surface Hardening, 362.
